

# BUA MOBILE LAB

**Bringing open source hardware enabling tools to  
Students & Researchers from Berlin Universities**

**Turn your hardware idea into a tangible prototype with hands-on support in our mobile lab:** Use open source hardware machines to realise a fully open tool chain. Get support to publish your reviewed hardware through our publishing platform including documentation, licensing, technical drawing support, and much more.

## STOPS

Find the next stop on our website (starting 10/24)

## HIGHLIGHTS

- CNC milling
- Laser cutting (CO<sub>2</sub> laser)
- 3D-Printing
- Documenting and sharing
- Reviewing research hardware
- Training & counsel
